

header-phone

The diagram illustrates a mobile header layout within a light blue rounded rectangle. At the top is the title 'header-phone'. Below it is a large light orange rounded rectangle representing the header area. This area is divided into two sections: a yellow rounded rectangle on the left labeled 'logo', and a light green rounded rectangle on the right. Inside the green rectangle is a smaller yellow rounded rectangle labeled 'utility-link'. Below the orange header area is a light purple rounded rectangle representing the 'top-level-navbar'. On the left side of this navbar are three thick, horizontal black bars, indicating a menu or navigation system.
