## Welcome to the Community Science Museum

Step inside a world built for explorers of all ages, from stargazers and inventors to future biologists, engineers, and dreamers. Here, science isn't something you read about—it's something you touch, try, test, and experience.

With hands-on exhibits, living stories of discovery, and a universe of ideas waiting to be uncovered, the museum invites you to dive in, ask questions, and see the world with new eyes.
